

What does Rain, A Rabbit and Cygnus Systems, Inc. Have in Common?

By Market Insights, LLC

Dated: May 28, 2009

Cygnus Systems, Inc. recently held a 20 year anniversary gathering at their offices in Taylor. The Southern Wayne County Chamber President Alan Anderson and Robert Ficano were among the dignitaries.

It was drizzling outside the tent, but no one seemed to notice as they reflected how much the computer industry has changed since the 1980's.

Alex Burkulas and Kevin Martin cut the ceremonial ribbon to commemorate their two decades of partnership. Mr. Robert Ficano, Wayne County Executive, graced the group with his presence and asked what he could do to help the computer industry. An adorable white bunny performed astounding magic tricks to the audiences delight. The food was fabulous and prepared by Alex's wife Rochelle.

It is wonderful to note that, regardless of the turbulent times, you still have those thanking their clients for the business and taking time to smell the veggie tray.
