

Wolf Platform-as-a-Service widens their market reach by adding support for Mozilla Firefox users

By Wolf Frameworks

Dated: Jun 01, 2009

WOLF Frameworks officially opens support for Mozilla Firefox web browser users.

WOLF, the standards compliant cloud computing Platform for designing & delivering business applications, today opened their framework for Mozilla Firefox web browser users. WOLF Platform-as-a-Service Technology assists Entrepreneurs, Application Developers, IT Service Providers and Business Leaders to get their customized Business Applications developed 70 percent faster on the cloud at less than half the cost.

"Technology is our promise and we will continue to make it easy & deliver lot more functionality as per our customer's needs. Mozilla Firefox users can now work on Wolf SaaS Application Development Framework and get complete support from us. Officially we are open to IE 6, 7, 8 and all versions of Mozilla Firefox 3.0 onwards." said Mr. Ralph Vaz, Founder & CTO WOLF Frameworks.

Wolf Frameworks Cloud Computing platform is used for developing & delivering customized business processes as SaaS applications. It helps to drive additional revenue for IT Solution Providers and Domain Experts by rapidly converting their ideas as SaaS applications & offering these applications on a recurring subscription fee.

It is time to say 'Good bye' to standard software packages and 'Welcome' affordable and tailor made customized applications which work the way your business needs - available all the time - online. Wolf platform requires little technical skills and no up-front capital expenses & introduces a paradigm shift where complex applications get developed within weeks & links software service provider's revenues with customer's business growth and not just standard software development skills.

"We offer a standards compliant SaaS Application Development Platform. Our existing application developers can leverage lot more designing features released along with Mozilla support and will only need to re-publish their application entities and start accessing their apps using the Firefox browser right away." added Mr. Ralph Vaz.

For IT Solution/Service Providers, please visit the following URL <http://www.wolfframeworks.com/> - register for the 2 user free account and start exploring the framework and know more about the partner program. Interested customers can reach the WOLF Team directly: +1 (703)-953-1053 / +91 80 2572 4140 and get their custom business applications developed rapidly.
