

Special Forces T-Shirts at Vision-Strike-Wear.Com

By Mac Design Reports

Dated: Jun 01, 2009

Custom designed t-shirts specifically for your unit can be found at Vision-Strike-Wear.Com.

With very low minimums, cutting edge graphics and a desire to produce the very best for each unit that requests a design from VSW is what Vision-Strike-Wear.Com is all about.

"We want to give them something they have never seen before and make the design wicked"! Says, Todd G, founder of Vision-Strike-Wear.Com. "For us its about giving the best. They deserve it. It's our way of supporting the troops." When working with VSW we recommend giving them free reign on your design. The more art and less bs the better your design gets. Let them create it. Give them the details like unit name, call sign and maybe a few references, then get out of the way and see a piece of art for your t-shirt come to life.

Others talk the talk but VSW walks the walk. Put there design against any out there and see why "Their Design Is The Difference". Others might charge less but you will not get better. If you hit their sweet spot and what you are looking for for is what they do then you will be happier than all get out!

Check out their designs at <http://www.vision-strike-wear.com> and see the designs that are among the best out there.

"Custom designs are what we do! We are not plain Jane. Sorry Jane. We just love to design and create and support the troops. work for us is fun because our designs go on the back of America's Finest!"
