

Online Stock Traders in Fargo, North Dakota Discover REITs

REITs offer the opportunity to enjoy profits derived from residential real estate and commercial real without risk associated with ownership of property

June 2, 2009 - [PRLog](#) -- Fargo, ND – As we observe all the shifts in the investing markets, we hesitate to put money into any of them right now. We wonder how to determine a safe investment.

Earl E. Bird, III, spokes person for the ReitBuyer.com said “Perhaps it's time to look at some of the other investing options out there like real estate. I am not talking about purchasing and managing properties. I’m talking about a different type of real estate investing; Real estate investment trusts or REITs are funds where you purchase shares of the investment and a real estate management group of real estate development group uses that money to purchase, build or maintain property ventures.”

Earl explained that Real estate investment trusts or REITs are funds where one can purchase shares of the investment and a real estate management group of real estate development group uses that money to purchase, build or maintain property ventures. In return for the investment, one is paid a portion of any profit that the company makes, much like a stock dividend.

While some investors think it is unwise to consider investing in real estate in today’s market, Earl believes that this is the best time to invest. Earl said, “Look at the positive side; the price is low today; ‘buy low, sell high’ is the rule to profitable stock trading. Most experts feel the downslide of real estate values has slowed and will eventually be on the upturn again.” Read articles written by Earl at <http://llctrading.blogspot.com/>

REITbuyer.com is an online brokerage information site specializing In REITs and Real Estate Mutual Funds – The World’s first and only site dedicated to REITs Real Estate Mutual Funds. This is a place for the small investor to own a piece of world class real estate.
