

Organic Bskinny Coffee - Fat burning Skinny Coffee by Boresha Promotes High Energy & Weight Loss

June 5, 2009 - [PRLog](#) -- Bskinny Coffee aka Skinny Coffee is the newest product from Boresha Coffee Intl and is scientifically designed to promote weight loss and help people burn fat. With obesity reaching near epidemic levels, Bskinny Coffee (Skinny Coffee) has emerged as an incredibly simple way for the average person to enhance their weight loss or weight control efforts.

What is the best part about Bskinny Coffee (other than that whole fat burning thing)? It tastes great. Bskinny Coffee is made from gourmet, organic, 100% AA Arabica Coffee that is infrared roasted which produces a deliciously smooth finish without a hint of bitterness (less than 3% of the all coffee is infrared roasted).

Boresha is so confident of the results of Bskinny Coffee they are actually giving away free samples of Bskinny. More information on the free samples can be found at

<http://www.skinnycoffeeworks.com/bskinny-skinny-coffee.php> .

The formula behind Skinny Coffee was created by renowned researcher Dr. Ann de Wees Allen. Dr. Allen won "breakthrough product of the year" for her skinny coffee formula. Bskinny coffee is designed and formulated to promote thermogenesis in the fat cells of the body which leads to weight loss. Additional benefits of Skinny Coffee are that it provides hunger control, high levels of energy (without causing the dreaded "jitters"), and combats stress related eating. The average person will also be melting away fat cells while sitting at their desk, watching the kids, or playing golf!

With so many people making promises to lose weight and live a healthier lifestyle, one of the easiest things they can do is to drink a healthy organic coffee that designed to burn fat. Boresha is also soon to release the rest of their Fat burning product line including skinny tea and skinny chocolate.
