Free acai berry supplements available to Canadian residents who just have to cover shipping and handling charges. Now there is no reason to miss out on this potentially life changing health supplement.

The acai berry has taken the world by storm due to its health benefits that include antioxidants, omega fatty acids, and dietary fiber. These berries have been featured on news programs and television talk shows as well as in newspapers and magazines.

Multiple studies have shown that antioxidants, omegas, and fiber like those found in acai berries improve overall health and digestion which can lead to more energy and a generally healthier life. Many people also experience a level of weight loss while taking acai berry based supplements, but further studies are need to clinically prove the acai berry as a weight loss supplement.

AcaiBerryPill.info has partnered with several supplement suppliers to offer free trials of acai berry supplements to Canadian residents.
