

The 48 Laws of Power Through Spirituality

For those that seek achievement through spiritually-based methodologies, here are your 48 Laws of Power Through Spirituality.

June 10, 2009 - [PRLog](#) -- The 48 Laws of Power Through Spirituality

Best selling author Robert Greene wrote the wildly popular book, “The 48 Laws of Power”. The book teaches you step by step how to attain power (by the author’s definition) through intimidation, fear, scape-goating and deception. It provides historical references to how each law was effectively used, and many levels of advice to ensure you know how to implement each law. There are those of us that will not want to achieve anything through these means, however. It is for you that the following has been written. Here are your laws, which are morally, ethically and spiritually-based. These are “The 48 Laws of Power Through Spirituality.”
