

PLUS Model Magazine Reveals Sexy Fashion Finds For Curvy Fashionistas to Dress on Trend This Summer

The hottest fashion craze this season is floral prints that inspire confidence and femininity by hiding your figure flaws and enhancing your curves without breaking a sweat!

June 11, 2009 - [PRLog](#) -- Mainstream fashion designers have traditionally churned out disappointing clothing options for plus size women. Thanks to the editors from **PLUS Model Magazine** dressing stylish and chic this summer will be effortless for full-figured fashionistas. While searching out the top trends for summer, floral prints, from high-end couture to discount retailers dominated the fashion scene. In addition to being feminine, which is also a big trend in fashion right now, floral prints conceal your flaws while enhancing your curves at the same time.

In these solemn economic times bold floral, animal, and graphic prints have been that bright spot, particularly in dresses, from the mass market to higher-end designer boutiques. According to Lori Holliday Banks, senior fashion analyst at The Tobe Report, "Prints make people feel good and give them a reason to buy." She says across the country retailers are in agreement that color and print were the big success stories for spring, making much more of an impact than any single silhouette.

In addition to floral prints, another dominating trend for summer is the **maxi dress**. Perhaps the most popular silhouette in dresses is the maxi dress. They are all the rage with celebrities and real women who want to dress on trend and stay comfortable at the same time. Plus Size maxi dresses are versatile and can be worn both casually and dressy. The fashion experts from **PLUS Model Magazine** selected <http://www.Cherished-Woman.com> 's best selling plus size maxi dress as one of their summer fashion must haves. In addition to being ultra comfortable, this stylish and chic maxi dress can take you from day to night, giving you more bang for your buck.
