

Online Credit Card Processing in Pakistan – Shopping Cart Integration in your Website

By Unique Links

Dated: Jun 13, 2009

One of the reasons that one line business has never got momentum in cities like Lahore, Karachi, Islamabad etc is that business community here treats their website only a business introduction tool and not a business place itself

Integration of credit card processing into your business web site can make it globally accessible, more purposeful as well as professional. The integrations are pretty simple to implement, if you can devote bit of time. Much of the fears come from having a bank account itself (which is simpler when you get along with it).

Over the years, the web developers have been fooling the business owner by providing them credit card transaction services at very high costs and getting out of it after getting their payments leaving business man high and dry

In most cases you just need a bank account to proceed with these. However, if you have a credit card for payment of one time or monthly payment to services being offered to you that is even great.

At <http://unique-links.com.pk/ccintegration.html> we are offering web master resources and assistance wherein the developers can have know how about such matters like integration of credit card transaction mechanism, normally this is also termed as credit cards We have listed some of the established services in this regards, while we have links to others for you to explore.

Out of the services we have listed at <http://unique-links.com.pk/ccintegration.html>, 2Checkout and Money Bookers seems better. Our experience, however, at unique links pertains to 2Checkout.com. 2Checkout has come up well over the years and continues to improve. Their recent addition is paypal, which means if you are 2checkout customer you can also offer sales to paypal account holders. This facility is however, for non-recurring bills.

Over the years, the web developers have been fooling the business owner by providing them credit card transaction services at very high costs and getting out of it after getting their payments leaving business man high and dry Services available in Lahore, Karachi, Islamabad, Peshawar, Multan, Faisalabad and all other cities of Pakistan.

###
