Brand new company <http://www.4saleboard.com> have launched a fantastic website which is dedicated to helping home movers from across the UK sell without an Estate Agent. It's aim is to revolutionise the property market and show sellers that Estate Agents can be a thing of the past. As you can guess from the title, <http://www.4saleboard.com> specialise in providing personalised and eye-catching "For Sale" and "To Let" boards to private sellers and landlords and at unbelievable prices.

However, that is not the only reason for this site to be the new "Must See" site for Private Sellers. They have also enrolled the help of UK property expert Benji Brown to create "The Ultimate Guide To Selling YOUR Home" and they are giving it away for free in order to give sellers the best chance of securing a buyer and achieving a great asking price.

Steve Jones, communications director said "4saleboard.com has been created to show the UK that you don't need an Estate Agent to sell your home. It is a fresh alternative to the people that are saying it can't be done, because it can. Nowadays, many of the methods and techniques that are used by Estate Agents to sell houses are readily available to the public, people just don't know. We are driven towards giving sellers all the help they need. We have an "Ask The Expert" section where people can post any questions directly to our highly experienced property insider and we have even created a fantastic guide to selling your home which we are giving away for free!. All you have to do is visit us at <http://www.4saleboard.com>". It seems that if your selling, this site could be well worth taking a few moments to have a look at. The guys assure me that you won't be disappointed!

As mentioned before, the site provides sellers with one of the key ingredients when it comes to selling houses, personalised For Sale boards. Ben Michaels, Director, said "It is surprising to see how many people do not realise how important a For Sale board is. Even in this internet age, an eye-catching For Sale board is worth its weight in gold. 80% of buyers move within a 5 mile radius. This means that local people are actively searching for your home. It is essential that you demonstrate to these potential buyers that your house is on the market and you are serious about selling. A massive number of houses are still sold on the strength of a For Sale board" .

4saleboard.com offers some fantastic designs that are guaranteed to attract attention to your property. Communication is not a problem either as your contact number can be printed on the boards for no extra cost ensuring that you do not miss out on any potential buyers.

If you have any questions about selling your home or would like further information, head over to <http://www.4saleboard.com> or contact the guys by sending an e-mail to info@4saleboard.com. They are very friendly and will be more than happy to answer any questions that you have!
