

## Dell Ultrasharp 24 Inch Widescreen Flat Panel Monitor

*By EuroPC*

*Dated: Jun 17, 2009*

*A quality computer monitor can not only enhance the colours on the screen but can also increase productivity, improve your posture and used in conjunction with a variety of different devices.*

Gone were the days when computers were just computers that enabled you to write word documents and create presentations. Desktop computers have evolved into a multimedia centre to combine a variety of different entertainment devices. To cope with the with ever advancing graphics and video hardware that is available you need a high quality monitor to view it from then the Dell Ultrasharp 24 inch monitor will be perfect.

As well as having a large 24 inch widescreen display to view your work or entertainment device, the computer monitor also boasts convenient USB 2.0 ports and media card readers to help you avoid the hassle of running out of USB ports on your desktop computer or reaching around the back to access them. This is a great feature, especially if used in a cramped office environment.

In terms of being more productive in your day-to-day working life then the size of the widescreen display will be extremely beneficial as you can view two complete pages side by side with ease. The 1920 x 1200 resolution screen enables you to view images with stunning detail and the fast 6 millisecond response time means that it is ideal for avid gamers looking to get the maximum out of their gaming experience.

Comfort is key which is why you can adjust the height of the computer monitor to ensure the perfect viewing or working position. The computer monitor can also tilt forward or backwards, swivel left to right and even pivot from landscape mode to portrait mode to suit your needs.

Connecting to your favourite new device is simple with options to connect to Blu-ray DVD players, HD-DVD players, cable boxes or your favourite gaming console. The latest hardware can be experienced in HD with incredible sound thanks to the HDMI 2.1 Audio Out connection. All of these different ports and connections mean that it will be able to keep up with the latest technology, which means the monitor will still keep up with the times for many years to come.

You can purchase this incredible computer monitor from a variety of computer stores but EuroPC guarantee the lowest price for this Dell Ultrasharp 24 inch widescreen monitor in the UK. The company offers guaranteed low prices on a wide range of their products as well as offering discounts for bulk purchasing. For large organisations this can be extremely worthwhile, along with the experienced advice on the right computer to suit your situation.

EuroPC are unique as they focus on selling refurbished laptop computers and desktop computers, which means that customers are able to purchase high quality hardware at around 20% less than the other major electronic outlets.
