

Global Hip and Knee Implants: Market Penetration to Drive Growth

By GlobalData

Dated: Jun 19, 2009

The global joint reconstruction market was valued at \$14.3 billion in 2008. Hip and knee replacement account for 96.6% of the global joint reconstruction market

Hip and knee replacement volumes are expected to accelerate in the next five years as the 'baby-boom' generation approach their retirement age. This pool of patients in their late 50s and early 60s are expected to generate a huge demand for procedures such as hip and knee arthroplasties. Moreover, this population is more active when compared to their earlier generation.

The future of global hip replacement market is expected to grow with a CAGR of 8.8%. Driven by innovation in hip replacement procedures that will make them easier and safer this market valued at \$5.9 billion in 2008 is expected to reach sales of \$10.6 billion in 2015.

'Global Hip and Knee Implants: Market Penetration to Drive Growth' report is an essential source of data and analysis on the global hip and knee implants market with complete coverage by categories.

Gain insight into the prevalent competitive landscape and the emerging players expected to bring significant shift in the market standing of the existing leaders.
