

## Technology Breakthrough - Zer01 Plans Cellular Unlimited Pay As You Go Cell Phone Plans

By Events Authority

Dated: Jun 21, 2009

*Zer01 and Buzzirk Mobile, wholly owned subsidiaries of Unified Technologies Group, will be releasing the world's first unlimited prepaid cell phone plans that utilizes breakthrough cellular-over-IP technology-the first of its kind, starting 7/1/2009*

Beginning July 1, 2009, Zer01, a wholly owned subsidiary of Unified Technologies Group (UTG), will introduce the world's first cellular-over-IP network that will work with existing cell phones, or a slew of new phones to be released by another UTG subsidiary, Buzzirk Mobile.

Complete details can be found at: <http://worldsbestcellplan.com>

Over the past several years, Unified Technologies Group, a multi-billion dollar conglomerate, has been quietly buying up an unused section of the telecom spectrum which allows for very fast cellular transmission of data packets that will be routed through the internet, bringing the world the first ever cellular-over-IP network.

This breakthrough technology allows for the best prepaid cell phone ever offered - an unlimited, pay as you go monthly plan with no contracts and no limits on voice, data, web, email, text messaging, MMS messaging and speeds that are 5G compared to anything else available.

Videos will be able to be downloaded in about 1 minute due to the speed of the network. Call quality and standard features will be unsurpassed in the cellular industry, effectively trumping any other cell phone calling plans available through other carriers.

The price of the plan will be \$79.95, tax included, with no additional fees or charges, no roaming charges, no charges for additional minutes. Also, an international calling plan with unlimited minutes to over 40 countries will be available for only \$10 more per month.
