

Made4Net is Expanding Their Partner Network in the U.S.

By Made4Net

Dated: Jun 21, 2009

Made4Net, a global supply chain solution provider for 3PLs and distributors, is expanding their U.S partner network. The 3PL market is their fastest growing segment and orientation. They are a Bronze Sponsor at the 7th Annual 3PL Summit June 22-24th

Made4Net, a global supply chain solution provider for 3PLs and distributors, is expanding their U.S partner network. The 3PL market is their fastest growing segment and orientation. Made4Net are a Bronze Sponsor at the 7th Annual 3PL Summit June 22-24th in Atlanta and combined Outsourcers Conference.

Made4Net is focused on an affordable and versatile platform-SCEExpert™. This execution platform easily adapts to existing IT environments. Their suite of integrated products can be individually deployed, modified or combined as needed, based on your business requirements. It is built on pure Microsoft technology, Service Oriented Architecture (SOA) deployment, and powerful configuration and business process rules mechanisms. SCEExpert™ bridges the gap between Enterprise systems (ERP, MRP, HR etc.) and your operational requirements to deliver a completely adaptive Supply Chain Execution solution.

Made4Net recently announced a new international customer for their 3PL WMS solution and implementation plan. Crossroads Distribution chose Made4Net WarehouseExpert™ and BillingExpert™ (modules of the SCEExpert™ suite). Their 3PL business transcended to technological sophistication that flexibly manages multiple customers across verticals with complete visibility. More importantly it emphasizes ease of implementation and configuration by being conducted together with Made4net's partner/reseller, Logistics Applications Services (LAS).

About Made4net:

Made4net is a leader in delivering real-time solutions for managing and improving Supply chain Execution. Offering a Best of Breed WMS for small to large warehouses, dynamic routing to optimize the distribution process, and additional complementary solutions such as Yard Management, Loading Optimization, and Delivery management, which provide an end-to-end solution for any logistics oriented organization. Made4net's SCEExpert™ platform offers a comprehensive yet modular suite of products that may be implemented individually or as a completely integrated solution. www.made4net.com
