

Nokia 5800 XpressMusic on Contract Deals - It's Truly Musical

Nokia 5800 XpressMusic mobile phone is especially designed for the music lovers. With great sound features provided by the device one can experience the best quality music through it.

June 22, 2009 - [PRLog](#) -- Today, different brands are out into the market with their different types of mobile phones to attract the customers. All phones have a lot of features and the customers have to make a choice from available types. The handsets of these brands are available with different types of deals which are again to be chosen by the customer. Nokia is among one of the popular brands which produces mobile phones with good number of technology features as well as a variety of deals like contract deals.

The Nokia 5800 XpressMusic can be taken as an instance in this respect. It is the handset with a plenty of sophisticated features and a variety of deals. This smart phone has a weight of just 109 gm, including the battery. One can even get Nokia 5800 XpressMusic on contract deals. This is mainly a music phone which comes with a high speed 3G technology. 15.5 x 51.7 x 111 mm is the dimensional measurement of this music phone. Moreover, the gadget comes with an accelerometer feature which helps the user to flip between viewing the screen in either landscape mode or portrait mode. The screen will automatically switch between landscape and portrait modes according to the needs of the user.

The mobile has a touchscreen of size 3.2 inches and provides the user with a beautiful display. Its QWERTY keyboard allows one to input numbers or characters into it with much ease. A stylus can also be used for this purpose. The 3G HSPDA technology allows users to experience and enjoy high speed internet connectivity at broadband type speed. You can connect it to other Bluetooth devices using the Bluetooth technology provided by the phone for transferring files. Nokia 5800 XpressMusic (<http://www.3mobileshop.co.uk/showphone.asp?id=1485>) also comes with a USB port for connecting to PCs, laptops and other devices. Upto thirty five hours of music playback time is provided by its battery when fully charged. The A-GPS navigation system can help the user to locate himself if he is ever lost.

The Nokia 5800 XpressMusic comes with a built in 3.2 MP camera which also has a LED feature that would enable you to take quality pictures even in dim light. Sixteen gigabyte of extra memory can be inserted in it with the help of a memory stick card. This is in addition to eighty one megabytes of internal memory. Documents can also be created, sent or received using this gadget. SMS text message containing texts and symbols can always be created and sent through this handset. The instant messaging service of this device allows anyone to talk to others who are online. More in the form of handsfree is given to the users which can help them do other works while talking. FM Radio supporting RDS allows users to have an ultimate radio experience. MP3, AAC, polyphonic and video ringtones are also supported by this music phone. The media features can be easily accessed using the media bar touch screen through which one can change the media themes in the manner one wants.

You can purchase Nokia 5800 XpressMusic on contract deals where you need to sign a contract for 12 to 15 months or sometimes even more. These deals also help you to get a number of benefits like gifts provided with the deals. Also, the schemes include free talk time, messages etc. More to say about the phone, this Nokia phones (<http://www.3mobileshop.co.uk/nokia-mobile-phones.asp>) comes with a bass booster sound feature, loudness control & stereo widening sound feature which allows the user to experience great sound.

On the whole, Nokia 5600 XpressMusic is the first touchscreen phone designed by Nokia but is good enough for anybody to have it.
