

Cascade Tek Ranks 36th On Oregon's Fastest Growing Private Companies Top 100 List for 2009

By Outlier Solutions Inc.

Dated: Jun 23, 2009

Cascade Tek, a leading product reliability test lab, laboratory oven manufacturer, and environmental chamber sales and service provider, has officially been selected as the 36th fastest growing private company in Oregon.

Hillsboro, OR, – Cascade Tek, a leading product reliability test lab, laboratory oven manufacturer, and environmental chamber sales and service provider, has officially been selected by The Portland Business Journal as the 36th fastest growing private company in Oregon.

Selections were based on total revenue growth over the past 3 years, from 2006-2008. Cascade Tek has seen their total revenue increase from \$2.8 million in 2006 to \$5.2 million in 2008, for an 84.69% overall growth. Announcements were made at an awards ceremony held at the Portland Art Museum on June 18th, 2009. “This is the first time Cascade Tek has made the list of Oregon’s fastest growing private companies. It is such a thrill for our entire team,” states Mary Babitz, Vice President.

As a customer driven company with unique service oriented products, the excitement extends beyond the immediate Cascade Tek family, “Seeing our customers on the list was such a great feeling. It means we truly are making an impact in helping Oregon companies bring new and reliable products to market with our product testing capabilities,” says Babitz.

The growth of the company is due in large part to their sustained dedication to environmental testing services. (<http://www.cascadetek.com/testing-services.html>)The 17 year old company continues to expand the services capabilities of their state of the art testing lab, encompassing a broader range of customers, Babitz continues, “I am very pleased with how we have been able to continually increase the types of product tests we can perform and how our accreditations and expertise attract customers from all over the world.” For a virtual tour of the lab visit: <http://www.cascadetek.com/tour.htm>
