

## **Compass Amazing Resorts announces alliance with high street agents Your Move and Reeds Rains**

*Compass Amazing Resorts team up with Reeds Rains & Your Move, two of the UK's leading estate agency groups to offer clients 'distressed sales & bargain properties in Spain, Portugal and other overseas destinations.*

**June 23, 2009** - [PRLog](#) -- Reeds Rains & Your Move have partnered Compass Amazing resorts for their clients Overseas property requirements.

Compass Amazing Resorts, the UK based overseas experts have extensive knowledge of the overseas markets, with offices in Spain, Portugal, Cyprus, Turkey & the USA (Florida) they can offer clients the professionalism and security of selecting their overseas property from the high street.

Reeds Rains now have over 100 branches throughout the North of England, Wales and the Midlands and have been in business since 1868.

The branches focus on sales and lettings with a complimentary range of services designed to assist their clients such as mortgage services, legal services and the provision of HIP's.

With branches throughout the UK, Your Move are double Gold Award winners in The Estate Agency of the Year Awards 2008. They have a comprehensive service for sellers, buyers and landlords.

'Experience tells us that sound customer care is based on a simple business formula' says Compass Amazing Resorts Tim Landseer-Brooks, a veteran of the overseas business who has almost as many stamps in his passport as Alan Whicker!

Tim says the Compass philosophy is simple 'Our clients should look for a great property at a good price-not a good property and a great price'-excuse me if I paraphrase one of the greatest investors of all time - Warren Buffet.

Reeds Rains & Your Move have built outstanding business by simply listening to their clients. Compass too has built their portfolio around what today's clients demand.

The UK buyer is still active; we are probably the savviest buyers in Europe and demand the right property, in the right location, at the right price. The consensus is we are reaching the bottom of the market-the time to snap up the opportunities starts now!

Key ready or re-sale properties –why wait 12 to 18 months for a development that may, or may not even be completed, why pay stage payments and tie up client's hard earned cash when the right properties are all ready there!

Clean Deed and title: 'We believe we are the 1st UK company to offer the clients the service of completing their contract back in the UK-at their pace and convenience. Reeds Rains and Your Move partnered with us for many reasons, one of those is we do not take any referral fees or commissions from Lawyers-full stop!

Let the best property win' is the Compass mantra!

Location, location, location combine with discount, discount, discount. Clients know there are bargain's to

be had this is the 'Sale of the Century'.

This is the year of the bargain. In 2008 Companies like Harrods had their usual full stock of products yet the downturn means they hadn't sold much of this stock. This means that going into the sales Harrods had more products than ever on sale.

This year Harrods simply won't buy in so much stock. They'll work through 2009 with a product more in keeping with the economic climate. This means that the sales next year will be a pale shadow of what they were this year.

This is the same in property. NOW is the time to find the best bargains. Why? Because the builders overseas need to improve their cashflow NOW. If they sell a few units now this will give them the cash flow they need to get through the coming months and years. This will mean they can relax and start being more commercial again.

Tim mentions that UK buyer is not as difficult to please as some companies infer 'In the UK we want a simple thing-fair play. We make it very clear to our clients what is achievable or not right from the start. I don't recall ever losing a client by telling them the truth'.

Tim goes on 'Word of mouth is the best marketing tool in the World'. It's refreshing to see Reeds Rain, Your Move and Compass team up with a company where the Directors supply their valued clients with their home phones numbers, service like that can only bring confidence to the market.
