

OM Software Started New Development Centre at Indore

By Alex Smith

Dated: Jun 27, 2009

OM Software Internet Solutions Private Limited, a notable name in providing quality IT and ITES services to its global clients has started its new development Centre in Indore.

OM Software Internet Solutions has been providing comprehensive IT solutions to its diverse set of clients since last four years. The Company is also functional in providing competitive Internet Marketing and Search Engine Optimization services. OMS specialization in developing E-Commerce Applications and optimization of e-Business processes has been a trendsetter.

Due to the increasing requirement of expert professionals and need for a different business spectrum, OMS was seeking a new place and platform to expand its wings. In order to acquire skilled manpower and reap the benefits of established facilities and infrastructure to grow further, OM Software established its new Office and development centre in Indore (The Economic Capital of Central India).

After inauguration of company's another development center Mr. Raj Kamal (CEO & MD) of OM Software said, "Indore is economical hub of Central India, with adequate infrastructure for growth of IT and ITES. We were planning to strengthen our presence in Central India, at the same time we were looking to increase our headcount, and nothing could be better than setting up an extension in Indore."

Mr. Raj further said, "Indore office will act as an extension to our main development center and will act as additional development hub. We are looking to recruit experienced resources here, and it will certainly lead OMS to the road of success." This is a relief to the skilled IT professionals who were looking for a suitable opportunity in phase of recession.
