

Small-sized UHF Tag with high preformance around metal & liquid

By *DAILY RFID CO.,LIMITED*

Dated: Jun 29, 2009

The usage of RFID UHF tag is limited on metal and water which disturb RF signals,and UHF on metal has often given the largest tag.DAILY RFID has developed small-sized RFID passive UHF Tag,with high performance around metal and moist environment.

The usage of RFID passive UHF tag is limited on metal and water which disturb RF signals, and UHF on metal has often given the largest tag. In order to aid the process, DAILY RFID has developed small-sized RFID passive UHF Tag, with high performance around metal and moist environment.

The small RFID UHF tag, typically about 2 centimeters by 2.5 centimeters, is a perfect choice in applications which require tags to be applied on small items around metallic and moist environment. Designed with strict industry standards, Its unique construction enables the passive RFID UHF tag to perform well in harsh environments, such as dipping in water and acid.

The UHF tag is designed for worldwide deployment, with operating frequency customizable from 860MHz to 960MHz. Besides, it has an impressive read range up to 3 meters on metal basing on different RFID readers. And the UHF tag is available in two version - EPC Gen 2(ISO18000-6C) and ISO18000-6B.

The UHF tag can easily be affixed to any metal surface either with its self-adhesive 3M Glue. Some small, fully encapsulated tags of the family have been successfully used in asset tracking applications such as railway and warehousing solutions.

You can visit http://www.rfid-in-china.com/products_668_1.html for more info about UHF tag for on metal surface.

About DAILY RFID CO.,LIMITED

DAILY RFID CO.,LIMITED(<http://www.rfid-in-china.com>), which belongs to PAN Group Co., ltd, is the leading company focusing on the research and development of EPC & RFID technology in China.

DAILY specialize in producing arguably the world's most extensive line of RFID Tag,Smart Label,Smart Card and RFID Reader, which are suitable for any vertical markets, and have obtained the National Integrated Circuit Card Register Certificate, IC Card Manufacture License and ISO9001 Quality Management System Certification. Also, we own a factory covering an area of 26,000 square meters.

DAILY's products are designed and manufactured with recognized industry standards relevant to its markets but most notably for use in the demanding environments to recognize and understand your business's RFID needs.
