Marc Perkins, President and Chief Executive Officer of the Company stated, "The increase in System sales is due to the significant number of new orders for high-speed assembly systems and upgrades, resulting in a systems order backlog of \$3.1 million at May 31, 2009 compared to a backlog of \$8.9 million at May 31, 2008". Mr. Perkins added that "Although the current backlog is lower, the Company has ongoing negotiations that should result in additional orders."
