International Property Investments 2000 was founded by a Group of Property Professionals with the goal of providing clients with solid expert advice on Repossessed, Bargain property purchase and Distressed property investments.

The growth in the Spanish market saw us establish our base in Southern Spain but now our portfolio is world wide.

We are able to offer our clients the best in services, so should you require legal advice, mortgage advice or interior design we can take care of everything. On our viewing trips you will have a chance to ensure all your questions are fully answered, thus enabling you to make an informed buying decision.

We are not High Street Estate Agents who have lists of properties in a shop window, we are Professional Property Brokers.

We LISTEN to our clients needs and locate the suitable properties that fulfil those needs. So whether it is an Investment, Holiday Home or Permanent Residence we locate the right property for you.
