

TR-6190/TR-6001 Industrial PC NEMA 4 19" & 15" TFT LCD Powered By Intel Core 2 Quad Processor

By Transduction

Dated: Jul 01, 2009

Mississauga, ON – June 30, 2009 – Transduction is now shipping the new TR-6190 and TR-6001 industrial PC's with NEMA 4 19" and 15" TFT LCD screen with matching USB resistive touch screen. They are powered by Intel Core 2 Quad Processor.

Mississauga, ON – June 30, 2009 – Transduction an established manufacturer of reliable industrial rack mount and panel mount computers, is now shipping the new TR-6190 and TR-6001 industrial PC's with NEMA 4 19" and 15" TFT LCD screen with matching USB resistive touch screen.

A telecom grade single board computer that includes Intel® Core 2 Quad, Core 2 Duo or Celeron D processors with 800/1066/1333FSB powers these rugged panel PC's.

They come with Dual Gigabits LAN, 2 x USB 2.0, 2 x COM and 1 x LPT ports. It also includes 2 x ISA and 4 x PCI expansion slots. Input power options include 110/220 VAC and 12, 24, 48, 125 and 250 VDC. The systems include up to 4GB DDR2 667/800MHz memory.

Additional options that can be included in the systems are:

- Wall mount bracket for mounting the system directly on to any wall space
- High speed Flash SATA SSD 16GB ~ 128GB
- IDE RAID1 Option
- BNC IRIG A/B time sync port

These industrial PC's are fully compatible with Windows XP 32/64-bit, Windows Vista 32/64-bit, LINUX and QNX operating systems. Operating temperature is 0°C ~ 60°C at full system load.

Actual MTBF of TR-6190 and TR-6001 is in excess of 100,000 hours. Warranty is 3 years.

For further information on the new TR-6190 and TR-6001, contact a Transduction product specialist at 5155 Spectrum Way, Bldg. 23, Mississauga, ON L4W 5A1. Telephone: (905) 625-1907 ext 12. Telephone 2: 1-800-268-0427. Email: sales@transduction.com. Website: <http://www.transduction.com>
