

The Nokia 8800 Arte Gold has an air of exclusivity

By Alan Reed

Dated: Jul 03, 2009

The Nokia 8800 Arte Gold is a phone which makes a statement of intent. It is plated in 18 carat gold and stands out from the crowd in more ways than one. Nokia have endeavoured to provide a phone which is more fashion than functional.

The Nokia 8800 Arte Gold is a phone which makes a statement of intent. It is plated in 18 carat gold and stands out from the crowd in more ways than one. Nokia have endeavoured to provide a phone which is more fashion than functional. Its scratch resistant surface ensures the phone is kept in a clean and prime condition as much as possible.

The MP3 player provides a player which will play all major audio formats with ease including MP3, AAC and eAAC music files. Its sound reproduction is exquisite and with the large memory storage provides the opportunity to store numerous music files for playing whenever the feeling arises.

The phone also provides a 3.15 mega pixel camera which has a resolution of 2048 x 1536 pixels which takes excellent quality images whilst on the move. The camera also doubles up as a video camera offering VGA quality video capture and recording at 15 frames per second. This affords the owner a useful opportunity to choose between both mediums.

The phone comes with a 2.0 inch OLED display, which displays 16 million colours. This means that images displayed are reproduced with life like colour reproduction and with a clarity which is hard to match. The screens resolution is 240 x 320 pixels.

GPRS and EDGE are both included, which are both class 10, as well as Voice memo and a speakerphone capability as well as T9. The phone also provides HSCSD and 3G. Internal memory is 4 Gb which will hold many hours of entertainment media for the user's enjoyment. Blue tooth and microUSB offers connectivity with other blue tooth enabled phones as well as the ability to synchronise with a PC.
