

## **The recently released HTC Touch Pro 2 takes some beating**

*By Alan Reed*

*Dated: Jul 03, 2009*

*The HTC Touch Pro 2 has a large touch screen display which engulfs the handset. It is the overriding feature of this phone, but it is also the one element which makes this phone what it is today.*

The HTC Touch Pro 2 has a large touch screen display which engulfs the handset. It is the overriding feature of this phone, but it is also the one element which makes this phone what it is today. All the functions are accessed via the screen and HTC have provided simple and efficient ways of utilising the phones main attraction.

The phone provides a large 3.6 inch high resolution TFT display touch screen which displays 65,000 colours at a resolution of 480 x 800 pixels. This screen is impressive and shows true colour representation of images. The touch screen's ability is enhanced by the addition of the latest TouchFlo 3D finger swipe technology, which is an effective method of accessing the variety of functions. This includes a touch sensitive zoom bar, for highlighting areas of interest and making them larger for more comfortable viewing. An accelerometer function offers the ability to auto rotate images to view in their correct aspect. Handwriting recognition is a useful addition and offers additional text entry. As if that was not enough, the Full QWERTY keyboard offers respite, if needed from the touch screen and provides a simple and efficient means of writing notes or texting.

The phone offers a 3.15 megapixel camera which offers 2048 x 1536 pixel resolution and affords this camera with a useful tool for snap shots. With the fact that video capture is also available means alternative methods of capturing moments for posterity are easily available. GPS with A-GPS function provides navigation support. The HSDPA connection provides internet access and combined with the Wi-Fi capability offers stable and fast internet connectivity. Blue tooth and miniUSB are also provided within this unit. An MP3 and FM radio provides musical entertainment to pass the hours.

The HTC Touch Pro 2 combines a number of factors that make this phone a force to be reckoned with. Its large display screen gives it an air of advanced technology. This phone has become a firm favourite with many whom own this unit. It comprehensively supplies all the major elements of a successful mobile phone and provides it all within a stylishly built casing.
