

The Sony Ericsson W995 Silver delivers stunning functionality

By Alan Reed

Dated: Jul 03, 2009

The Sony Ericsson W995 Silver has functionality that is mouth watering. Its energetic and endearing design belies its raft of features that impresses immensely.

The Sony Ericsson W995 Silver has functionality that is mouth watering. Its energetic and endearing design belies its raft of features that impresses immensely. Sony has always delivered phones which tempt the populous. Whether it's by bringing music to their ears or providing sleek and stylish designs, they know the mobile phone market well, and it shows with the introduction of this colour variant.

The phone has a 2.6 inch TFT screen which has a built in accelerometer sensor to auto rotate images to their correct aspect. The resolution of the screen is 240 x 320 pixels and displays 265,000 colours. This ensures excellent picture quality and colour reproduction.

The phone offers an 8.1 mega pixel camera which operates at a stunning 3264 x 2448 pixels. The camera also comes with a suite of picture taking aids such as auto focus, face detection and image stabilisation, as well as a built in LED flash. Geo-tagging provides the means to reference the images by location, which has become a much sought after feature. Video capabilities are provided at QVGA quality recording, at speeds of 30 frames per second. A video call camera is also provided as a secondary camera.

Internal memory storage on this phone is 118 Mb but also comes with the ability to expand the capacity up to an impressive 8 Gb by using the memory micro stick facility. Internet access is provided by the HSDPA connection and WI-Fi, which offers connection speeds up to 7.2 Mbps. Blue tooth and USB are built in and provide additional connectivity. GPS with Wayfinder navigator offers satellite navigation where required.

The phone provides an MP3 player and stereo FM radio. The MP3 player has the usual attributes you would expect from a Sony phone, with shake control, TrackID and SenseMe features.

The Sony Ericsson W995 Silver looks good and provides ample features that make it a contender in many people's books. The Walkman phones are geared towards musical entertainment and this phone is no different apart from the fact that it also offers much more. An excellent resolution camera makes this phone unbeatable in some respects, but when you add in all the other elements, takes this phone into a different league.
