*The Sony Ericsson W705 Black Silver has a familiar look to it in some respects. It is a typical Sony style of phone.*

The Sony Ericsson W705 Black Silver has a familiar look to it in some respects. It is a typical Sony style of phone. Simple and unassuming, it is hard to believe the amount of functionality that is packed into this phone which is only 14 mm thick. Its classic steely looks and slide out mechanism provides ample reasons to delve deeper into its feature packed interior, which doesn't disappoint.

An impressive 3.15 megapixel camera offers excellent snap shot capability and is extremely easy to use. An LED flash and geo-tagging is included as standard and aid in taking pictures and referencing them by location as well. The phone also provides a video camera which allows an alternative choice of media to capture moments for posterity. Video call is also provided as standard on this phone.

This phone is one of the Walkman style phones that the Sony name has become synonymous for. The MP3 player is a Walkman version 3 player and plays all major audio files including MP3, AAC and MPEG4. The media player can be controlled via its unique shake control feature and also comes with TrackID music recognition. An FM radio is offered which allows a different style of entertainment via local and national radio stations.

The HSDPA connection and Wi-Fi provide internet connectivity up to 7.2 Mbps and use of Wi-Fi hot spots that are publically available. Blue tooth and USB are included and provide additional connectivity to transfer files or simply to synchronise with software on a PC. The phone also provides a picture editor, organiser and voice memo included within its suite of additional extras.
