The phone comes with a 2.8 inch TFT touch screen and displays an amazing 16 million colours at a resolution of 240 x 320 pixels. As the main element of the phone, it is important that its useful, user friendly and effective, fortunately it is. Images are displayed with outstanding clarity and colour reproduction. The accelerometer function auto rotates images to be viewed in their correct perspective and the phone also provides a gesture lock.

The HSDPA connection provides internet access at 7.2 Mbps. Blue tooth and USB, both of which are version 2, are also provided which ensures that there is sufficient connectivity to transfer and synchronise files.

The phone provides an FM stereo radio with RDS and an MP3 player which plays all major audio files including WMA and AAC files. Shazam find music service is provided which helps to locate the details of a particular song, including artist and title. Internal memory is 80 MB with the option to expand to 16 GB by use of the built in microSD slot. This is large enough to hold a multitude of media for hours of enjoyment.
