The phone provides an 8 mega pixel camera which has a resolution of 3264 x 2448 pixels, which combined with auto or manual focus, power LED flash, intelligent shot, image stabilisation and multi face and smile detection affords the user with a plethora of tools to ensure excellent quality images. The camera also provides the ability to capture video at a respectable 30 frames per second and at a resolution of 720 x 480. The Slow-mo and QVGA time lapse recording offers additional means of recording images and provides means of capturing video that would otherwise be difficult.

The phones 3 inch touch screen encompasses the whole of the front face of this phone and displays up to 16 million colours at a resolution of 800 x 400 which ensures quality of image. The touch screen affords the user the ability via the S-Class touch user interface the means to access the features and functions with ease. An accelerometer provides the means to display images in their correct aspect.

Internet access is provided via the HSDPA and Wi-Fi which offers speeds of up to 7.2 Mbps. The internal memory is 1.5 Gb but is expandable by using the microSD slot up to 32 Gb. Blue tooth and USB are both built in as well as the GPS navigation feature which utilises Google maps. MP3 and FM stereo radio, organiser and voice memo are also included which completes the comprehensive list of functions.
