

Garagequotes.com Offering The Best Building Design Software For Concrete Garages And Steel Buildings

By Simon Moore

Dated: Jul 03, 2009

Leading online supplier of concrete garages and steel buildings garagequotes.com invest in design software

Innovative leading online supplier of concrete garages and steel buildings demonstrate their high levels of commitment to their customers by offering a speedy professional building design service for both concrete and steel buildings.

Recent Customer, Mr Rogers comments, "I was very impressed by the speed and details of response from garagequotes.com. From my initial telephone call, within literally 10 minutes, I had been emailed, detailed drawings including the building design, engineering drawings, footings and foundation details and full quotation highlighting the specification in detail. This high level of service and prompt, professional service was a big impact in choosing garagequotes.com to supply my steel building."

Founder of garagequotes.com Simon Moore goes on to say, "We were the first company in the concrete garage industry to introduce an instant online quotation system for concrete garages and buildings which continues to be very successful. We have now extended this service by being able to offer the customer with a detailed technical drawing of their building once they have generated their quotation. In addition we have expanded our product range to include our fantastic range of steel buildings, offering our customers greater choice and flexibility. Complete customer satisfaction is the key to the success of our business, and by investing in this latest software package, highlights our commitment to our customers so they can receive the highest levels of service in the industry.

As well as private client and small business contracts garagequotes.com have helped whether the current economic storm by concentrating their efforts on local authority and educational work, with recent contract wins for an Mot Bay in Nottingham, a large workshop for a Furniture Upholsterer in Watford and a large steel storage building for Ryan Air at Bournemouth Airport.
