Kissing was never invented to be dull and monotonous~in fact, kissing is one the most intense, passionate and downright pleasurable activity for couples! And do you know that kissing has many healthy benefits? Your occasional smooch can practically make you burn calories, reduce possible cavities and is a major cure of headache? Are you motivated enough to make your kissing activity more exciting and overwhelming with your girl now? Get wild and experiment with new techniques. Don't get stuck on your usual lip lock or routine smooching sessions. Get adventurous and try these sizzling wild creative kissing techniques guaranteed to make your girl ask for more:

* Lick, suck and twirl Get those lips some action! Are you often jammed in your usual French kissing marathon until you both get numbed? Be adventurous! Alternately lick and suck each others lips — and get wild by twirling your tongues together afterwards the foreplay.

* Take it slow and easy Make your kissing sessions passionate and intense by taking your time to "taste the sweetness". There's absolutely no need to rush and the slower it get, the more intense it becomes. So be patient — and enjoy the sweet torture.

* Moan and groan. Communicate while kissing let your girl know you're having a good time. Kissing can make you absolutely feel good (not to mention that it's a great stress reliever) so make little sounds as if telling her that you love what she's doing — she'll be mimicking you in no time. It sure is going to be a blast!
