

Winning Pick 4 Lottery Numbers – Huge Success In July

Pick 4 Strategies prove to be huge success. Back to back straight wins and a streak of 11 box wins highlight their success.

July 25, 2009 - [PRLog](#) -- Pick 4 Strategy System produces back-to-back Straight Pick 4 Wins in 10 States and a streak of 11 Box Wins in a row in the New York Win 4 Lottery in July, 2009. “Play & Win Daily Pick 4 With Big Cash Winning Numbers” with its 20 Proven Winning Strategies for the Pick 4 Lotteries in the United States, Canada, and Puerto Rico backs up its claim of offering strategies to find winning Pick 4 numbers to play.

Following and playing these twenty winning strategies have produced at least one Pick 4 Straight Win in each and every State that offers this game in the United States, Canada, and Puerto Rico just in the first twenty-three days of July.

In addition, the website offering this successful ebook, <http://www.playdailypick4bigmegacashwinningnumbers.com>, in its July Report celebrates the fact that ten of these State Pick 4 Lotteries had back-to-back Straight Wins including the Ohio State Pick 4 Lottery which did it twice so far this month.

The other nine State Pick 4 Lotteries with back-to-back Straight Wins include Connecticut and Florida Play 4, Georgia and Tennessee Cash 4, Massachusetts Numbers, Michigan Daily Pick 4, Missouri, New Jersey, and South Carolina Pick 4 Lotteries. With eight days left in July more states may be added.

The goal of this book is to apply one or more of the 20 Proven Winning Strategies to the drawn winning Pick 4 numbers and create another (or next) winning Straight Pick 4 Number.

Robert Walsh, the author, writes that some of the 20 Strategies systematically reduce the players’ choice down to just two or three numbers for a possible Pick 4 Straight Win from the 10,000 Straight Winning Number Combinations that the Pick 4 Lottery Game has from 0000 to 9999. One \$1 Straight Winning Ticket with matching numbers being in the exact order as the drawn number returns \$5,000. Robert Walsh encourages the buyer of his book to first learn the strategies before investing.

Box Wins, though not the primary goal, for his Ladder of Success Investment Plan play an important part by continuing to add “FREE” money to the player’s investment coffers. The player finances his/her Pick 4 play not with his/her own money, but that of the State Lottery with each Win beginning with \$200 for \$1 wagered on one Pick 4 ticket with 4 single number. \$1 Box Wins range with payoffs from \$200 to \$1200.

The New York Win 4 Lottery, using the different strategies, produced eleven (11) Box Wins in-a-row during these first 23 days of July with the streak being preceded and followed by a Straight Win. Winning just five of these eleven box wins with a one dollar investment would put a minimum of \$1000 Free Money into the player’s pocket.

“Play & Win Daily Pick 4 With Big Cash Winning Numbers”, available at <http://www.playdailypick4bigmegacashwinningnumbers.com>, sells online for \$47.00. The author continues to remind the reader throughout the book that with the very first \$1 Win of a Straight or Box Ticket the Pick 4 Player gets back the \$47.00 he/she laid out for the book. The rest of the winnings start the Pick 4 player out with a minimum of \$153 Free Money that can be re-invested to create more free money for the player’s financial investment plan.

In this financial crisis of 2009, when people want to know where to make a good investment in order to make money, the author poses the question: "Would you pay \$47.00 to learn how to get out of debt and gain financial freedom?"

One testimonial on the website referring to the author as a "genius" came from a Canadian Pick 4 Player who went from a "doubter" to a "believer" in these 20 Proven Winning Strategies after he bought the ebook. Let Success speak for itself!
