

## **The reason why FDI International will be BIG**

*FDI International is set to launch on August 15th in 60+ countries around the globe, simultaneously!!! Touching all sectors of Telecommunications.*

**Aug. 4, 2009** - [PRLog](#) -- Many people are asking the question:

In this economic climate, would it be a good time to start my own business?

Well, that would obviously be contingent on what kind of business you are looking to start. The FDI International business opportunity is “recession proof.” Why? Because as long as the sun rises in the east, people will always communicate whether it be personal or professional. Another reason, no matter the economic state, people will always want to save as much money as possible without sacrificing quality (especially in a recession).

Telecommunications is an integral and necessary part of EVERYONE’S daily life as it connects generations and knows no ethnic or religious boundaries. It’s the single biggest factor in flattening the world of commerce and overall communications.

How many people do you know that use Home Phones, Cell Phones and the Internet?

If I can save you 50-95% on the cost of your telecommunications with better features than you currently have, without changing your service, but just by applying new proprietary technology, would you be interested?

FDI is entering the \$4+ Trillion Global Telecom Industry (\$1.3 Trillion in the US alone) on August 14th 2009, touching all sectors of the industry, in 60+ countries simultaneously!!

Home

Cellular

Business

Internet

Calling Cards (\$50 billion industry)

VoIP

Video Phones

You will be able to save just about everyone you know money (50-95%) because everyone uses these services. And the best of all, they can do this with:

No Credit Check

No Taxes

**NO CONTRACTS!!!**

Our proprietary technology is an FDI exclusive!!

Additionally, there is NO competition for what we're doing!! We are not a start up company looking to market a new technology to the industry. We "Own the Tone", meaning when you pick up the phone you hear our dial tone. FDI International is the talk of the Network Marketing Industry and the BUZZ in the Global Telecom Industry. ACN, 5Linx and Buzzirk Mobile do not compare to what we are doing.

Have you been seeking:

A stable company with unique products that everyone needs and uses?

A team of entrepreneurs who will help you every step of the way?

A way to have fun even though you are building a business?

A business that you can be proud to share with your friends and family?

FDI International is the company you seek.

One time \$99 to plug in to FDI International!!!
