Most books also show hand positions at the top of the song indicating where to place your fingers on. Once the student is familiar with finding notes on the keyboard they're asked to start looking at an actual piece of music.

Then rhythm is incorporated into the playing by introducing the note durations and their name. The time signature of the many different kinds of notes is then introduced. Certain terms are also introduced in easy piano lessons.

Words like legato, slur, staccato, accent and dynamics, crescendo, decrescendo, forte, piano and mezzo forte to name a few. The speed with which to play the pieces like adagio for slow, andante for moderately low and allegro for fast. You've now learned what volume to use, which notes to play and the rhythm to play them in.

Now you need to know what speed to play. This is where tempo markings come in. They are generally located at the beginning of the piece above the G-clef. There are many different tempo markings. Sharp and flats are also explained in easy piano lessons.

Music is one sense an exact science so there's no need to reinvent the wheel. We can learn from experiences in the past. Octaves, meters, minor and major chords, intervals including diminished, augmented and other kinds of chords.

Then chord progression is studied. These are all included in easy piano lessons. Although it sounds and looks a little daunting at first, playing the piano can be easily learned, if you put your heart in it. It does require much discipline on the part of the student. Mere knowledge of the basics is not enough.

It is practicing them that makes perfect. If you are really interested and your heart is in it, you can surely benefit much from these lessons as they are the foundation of good piano playing.
