Aug. 30, 2009 - [PRLog](#) -- Born between April 22nd and May 21st, Taurus women are sensual, loyal creatures ruled by the planet Venus. Of course, this tends to make the Taurus woman very much a romantic at heart. Therefore, there are certain rules that should be followed while trying to get the Taurus woman to surrender to passion.

Compliment a Taurus woman from the start. Taureans can spot hypocrisy from a mile away, so make certain that all flattery is the real deal. Taurus women will go to great lengths to look pleasing for their partner, often spending the better part of the day readying for an evening out. Treat your Taurus woman like a sensual feast, and tell her so; a suitor that notices the total package is one that will get far in their pursuit.

Don't be afraid to be a bit territorial, even to the point of pushing the line a bit. Taurus women are traditionalists at heart, and a bit of possessiveness will show pride in your "possession." The Taurus motto is "I have," and that encompasses any person that happens to come into their circle of influence. At the same time, don't be restrictive to the point of being a guardian. Too much crowding will bring about the stubborn side of the Taurus personality.

If you happen to have a toned body, show it off. Bull women are creatures of the flesh, and there's nothing more attractive than bare, soft skin and toned muscle with a bit of natural scent. Let the Taurus catch the personal moments dressing and grooming. They love beauty rituals, and won't be able to take their eyes off of what's on offer.

Appeal to a Taurus woman's innate need for comfort and touch Offer a back or neck rub, since the Taurus' most vulnerable body part is the neck. Offer a super-soft blanket to lie on, and use a gentle touch. Light kisses on the back of the neck, or on the join of the neck and shoulder, will send chills down the body of a Bull female.

Learn how to cook. A gourmet meal will do wonders. Being able to cook shows an ability to care and provide, plus it appeals to the Taurus' highly developed sensuality. Find out what foods they like, and stick to that list. Don't go too exotic, since these are meat-and-potatoes girls who aren't going to be overly impressed with crazy cuisine. Taurus women can be easily influenced on a full tummy. Some sort of decadent sweet must be served for dessert, preferably by hand right to their mouths. If there's no way that dinner will happen without burning down the kitchen, order a fabulous spread from a nearby restaurant and serve it under candlelight.

Artistic talent is a huge attractor to a Taurus female. The Venusian influence imparts a love of the arts. Any inclination towards song, dance, or other performing art thrills a Taurus. The romantic in her wants to be a muse, so show that her presence moves or inspires. However, perform just for her, in private. Ostentatious gestures will come across as tacky, and are more suited to the Leo woman.
