"Sales and Marketing: The New Power Couple – a Peppers & Rogers White Paper"

This white paper will review the obstacles to making business development a team sport and then will present best practices around people, process and technology for aligning the sales and marketing organization.

Through insight from thought leader Don Peppers will highlight key elements, including strategy, process, applications, and enabling technologies for bringing sales and marketing closer together. And, they will propose a closed-loop framework for sales and marketing to achieve a collaborative, unified and holistic approach. The result: seamless communication and tracking to produce the most valuable customer relationships.

Offered Free by: Microsoft Corporation

Emerging Threats: The Changing Face of Email"

Understand the precautions it takes to keep up with the sophisticated nature of email attacks.

More than three years after the infamous declaration from Microsoft's Bill Gates that “spam will be solved” in 2009, unsolicited junk mail continues to bombard email servers, dumping malicious attachments, phishing lures and spam advertising for fake pharmaceuticals.

Offered Free by: Kaspersky Lab

"12 Criteria for Selecting the Best ERP System Replacement"

Learn how to get a return on your investment when replacing your ERP system.

An ERP system is your information backbone and reaches into all areas of your business and value chain. Replacing it can open unlimited business opportunities. The cornerstone of this effort is finding the right partner and specialist. Your long-term business strategy will form the basis of the criteria for your selection of an ERP system replacement. Your ERP provider must be part of your vision. It is the duty of your software provider to do their part to make sure your next system will be your last ERP system replacement. This white paper explains the 12 criteria that allow you to identify and select the solution that will meet these expectations.
