

## **Fuego Publications launches its Burn-Worthy™ series**

*Fuego Publications is proud to publish The Church of Irrelevance by Mike T. Dark, a novel about the American spiritual war between faith and reason.*

**Sept. 29, 2009** - [PRLog](#) -- Fuego Publications announced the release of The Church of Irrelevance by Mike T. Dark, launching the company's Burn-Worthy™ series. This planned series of books will be unified by one main focus: present views the establishment will want to oppress and burn. This first book of the series highlights the plight of the individual caught in the middle of the spiritual war in America.

According to Wikipedia, the first recorded incident of book burning happened in the third century BC in China. It has since happened often and all over the world. Fuego Publications does not advocate the burning of books. They acknowledge that others do subscribe to burning/banning theory of idea management, and it's with this prevailing order in mind that they undertake their mission: Promoting any views perceived as threatening to the establishment. The title of this series of planned books is Burn-Worthy™.

About the book: As the spiritual war between faith and reason continues to grow in the United States, many people find themselves caught up in the battle. Not the public battle being waged in the media, but the private battle raging within their conscious. These individuals have grown beyond the appeasements of religion, yet are unable to face a meaningless existence.

The Church of Irrelevance is the story of one such man. Sid suddenly finds himself sans religion, leaving him without faith, without hope, without his very sense of self. Lost, he quickly spirals out of control trying to rediscover TRUTH. As he regains control of his life, he finds his way and starts the most important church of the 21st century.
