"Dear Ruth: I have written to you before, but I just wanted to thank you again for a great course and web site. I just viewed your recent video lessons, and have really enjoyed them. As usual, they contain some great information which is quite useful for an aspiring pianist like myself!

Although I have been playing "chordal" piano for a number of years and have become quite proficient at it (good enough to trade in my Baldwin upright for a Yamaha grand piano last fall). I needed to strengthen my knowledge of music theory and notation, and your ebook courses and exercises have given me exactly what I needed. Although I currently consider myself an "intermediate" pianist, I found that even your beginner ebook was of great value to me. In all your ebooks, you present the information in a very simple and understandable way, and in a manner that is pleasant to listen to, and occasionally humorous and fun.

In short, you have a gift for teaching music. You are very good at what you do, and I have directed many other beginning pianist to your web site, where they can get "the most bang for their bucks!" Keep up the good work, Ruth. I look forward to many years of learning from you."
