Alberta based, Worldprofit Inc., The Home Business Experts, announced today that they have now surpassed 500,000 Members.

From humble upstarts on a kitchen table, Edmonton based Worldprofit Inc., reaches a new milestone of over 500,000 members.

Today, Worldprofit President, Sandi Hunter announced that the company has reached a new milestone of 500,000 Members. "We couldn't be more excited," commented Sandi. "We've been working hard to build an easy to use system that our members can use to build a successful home based business - no matter what they are selling."

Worldprofit CEO and Co-Founder, Dr. Jeffrey Lant added. "The Internet is changing daily and that means staying on top of research to know what is new, what is effective, and what isn't so that we can deliver only the best services to our customers. Tough economic times have meant that people are looking for more ways to make more money. Web-based home business opportunities are helping people do this - no matter where they live in the world. "

Sandi Hunter, President and Worldprofit Co-founder also noted, "The number of home based businesses continues to increase. Our goal is to provide these people with education, training, website hosting and design, traffic tools, prospect generation, specialized software, and home business resources. With the right tools and the right training anyone can operate a successful and profitable business from their home. What we have tried to do is offer all those tools, resources and training resources from one source - Worldprofit.com"

Worldprofit Technical Director, and Co-Founder, George Kosch added, "Companies that don't keep up with what is current simply don't stand the test of time. We use web-based technologies like webcasting to interact with our customers on a daily basis. This personal interaction and connection is critical to understanding the needs of our customers and our prospective buyers so we can stay on the cutting edge. We started by offering a Reseller Program for only our services, now people selling anything online can benefit from Worldprofit support, training and educational resources."

In closing, Sandi Hunter added, "There is so much more we want to do. We work in an ever-changing industry and every day brings the opportunity to be better. We welcome that challenge as Worldprofit commences the move toward the 1 Million Member mark. "
