

Mobile Effort Announces Price Decrease On Software

By Mobile Effort

Dated: Oct 16, 2009

The software development company Mobile Effort announces a major price decrease on their mobile tools.

Kharkiv, Ukraine – Because of increased interest to our software we are proud to announce a total price decrease on it. Our team hopes this step will make our applications more affordable and they will continue to help you in your daily tasks.

Software with lowered prices:

- “Message In Time” is an application that is designed for planning of time when your SMS should be sent. Just write SMS, set time and contacts and the application will deliver it when you need it. *Price is reduced from \$9.95 to \$1.95.* We still support discounts for users who prefer the Moneybookers payment system. Virtual accounts are not prolonged anymore. As a result money of first seven users who accumulated more than \$50 will be returned back. Others will be able to buy our products using earned virtual money.
- “Power Dictaphone” is the voice recording application with a grown set of useful features. The main points are the possibility to connect voice memos with textual data and support of audio compression format designed for speech. *Price is reduced from \$14.95 to \$2.95.*
