To begin with, the contestant chooses any one of the 26 suitcases, not knowing the value inside that suitcase. And from there on, the contestant's objective is to walk away from the game with the maximum possible amount of money through a process of opening the other 25 boxes and deciding to deal or not to deal with a mysterious banker who offers to buy the contestant's suitcase offering varying amounts of money at different stages throughout the game. The game show offers contestants an opportunity to win upto Rs 50 Lakhs in cash.
