ScottishPower your business: We are improving our products and services all the time. Could your business be enjoying an even better service from Scottish Power?

Home insulation offers:

Home Insulation Offers

Did you know that you can lose up to 35% of the heat from your home through the walls and up to a further 25% through the roof – heat you've already paid for.

Insulating your home can put a stop to this and could save you as much as £200 a year on your heating bills.

Here's how...

Cavity wall insulation

Quick and easy to install, most of the work involved in cavity wall insulation happens on the outside of your home, with minimal inconvenience to you.

Once a survey has established that your home is suitable, a series of small holes are drilled into the mortar joints of the external brickwork. Glass wool is then blown into the cavity space through the holes until an effective heat seal is formed.

When it's finished, your home will be more energy efficient, more comfortable and easier to keep warm. You'll also receive an independent 25-year guarantee.

Cavity wall insulation offers

Loft insulation

Glass fibre rolls are laid between all the floor joists. This material is chemically inert and so won't affect any other materials in the loft.

If you don't have any insulation, the glass fibre should be laid to a depth of 250mm (10 inches). If there is already a small amount up there, you may only need a top-up. Our approved contractor will be delighted to advise you.

ScottishPower has been supplying people's homes with Gas and Electricity for over 50 years. We are suppliers for over 3.5 million homes, that's why we're 'The Energy People'

We generate electricity, operate and maintain large power delivery networks and provide a full range of energy supply services, including metering, billing and call centre support.

ScottishPower is also pleased to announce that uSwitch has recognised the company for its online excellence by awarding ScottishPower Best Online Services Award in its recent Energy Customer Satisfaction Awards.
