

Final Pips Grabbing Correlation Trading Webinar

By Hassam

Dated: Nov 04, 2009

As the doors will be closing very soon, we wanted to demonstrate the kind of performance and "Pip Grabbing" Correlation Trading has been getting, leading right up to today. I'll be focusing on the sheer raw power of what I call "trade stacking"...

Jason on his final Correlation Code Webinar: "This time around we only have room for 1000 participants in each webinar, vs. last week, when we had over 5000 traders in each presentation. As the doors will be closing very soon, we wanted to demonstrate the kind of performance and "Pip Grabbing" Correlation Trading has been getting, leading right up to today. I'll be focusing on the sheer raw power of what I call "trade stacking", which is just what it sounds like - putting on multiple trades at the same time (short term and longer term) to MULTIPLY your potential outcome. This is REALLY exciting stuff, and when you see how I've been trading lately don't be jealous, just be open minded..."

Because it can be your way of trading too...But NOT for much longer.Come see what all the fuss is about before it's too late. Let's Rule The Markets Together! In this webinar I am announcing a MASSIVE new bonus worth over \$1200 on its own, and you are going to LOVE it." Now Norman Hallett from The Disciplined Trader Intensive Program on the upcoming Correlation Code Webinar: "The "Correlation Code"... where Jason Fielder shows us how to take advantage of "cracks" in the relationship between currencies... now has some real trade history, and Fielder has decided to hold a Webinar to show you his results and HOW they were obtained.

Go ahead and tap this link below and then bookmark the page so you'll have it on Webinar day... Recent new purchasers of "The Code" have been giving positive feedback (my feeling is it's a little too early to draw any conclusions... so I still want to know HOW "The Correlation Code" picks trades). In this Webinar, Jason will be showing you his "1-2 Stack" system which explains exactly how he "stacks" different trades on top of each other to improve his performance.

The word "Stack" kind of makes me nervous, so, again, I'll be interested to see what he's talking about... and he'll be going through it on the Webinar. I know Jason, and he's a very intelligent trader, so I'll be paying attention. Go ahead and tap this link below and then bookmark the page so you'll have it on Webinar day... Trading 15-minutes a day with "The Code" is advertised as being all you need to trade successfully. Wouldn't THAT be nice."
