

African American hair care, African American hair extensions, African American hair color, by RV

African american hair care, african american hair extensions, african american hair color, by Rodolfo Valentin, top hairstylists NYC.

Nov. 10, 2009 - [PRLog](#) -- African American Hair Care, African American Hair Extensions, African American Hair Color, by Rodolfo Valentin. He creates Ebony hairstyles at his regal hair salon, a premier New York City Salon, named between the top 10 best hair salons in NYC. Expert in beauty and hair care services for African American women, also men. Rodolfo Valentin holds over 25 years of experience in hair color, haircuts, hair weaves and as a maker of his own hair extensions back in 1984 when hair extensions were almost nonexistent. Rodolfo Valentin led the way by doing hair extensions in the NYC, NJ, and CT area, using hair extensions created with his own hands.

Rodolfo Valentin originally started at our Long Island hair extensions salon in 1984, later expanding to our NYC hair salon with a new version of hair extensions that we named Fusion Hair extensions. We have been incorporating and working with different types of human hair extensions since 1984. We were the first in the New York City, New York and Long Island with experience in all the hair extensions available in the market.

Rodolfo Valentin has travelled the world, investigating and helping to manufacturers (back then only restricted in Asia), to design and create new hair extensions systems. Later, new manufacturers, especially from Italy started to show in the market.

CURRENTLY

Unhappy with the available hair extension systems, and the impact of damaging people's own hair that they were causing, Rodolfo decided to create his own technique.

In 2006, Rodolfo Valentin introduced his exclusive, trademarked new technique--Hair Infusion, a safer, better way to have longer, fuller hair. After years of research and experience, Rodolfo believed that traditional hair extensions were unsafe for his clients...hair that the weight of the extensions debilitated and caused damage.

The old style hair extensions are heavy pieces of hair made to hang from small pieces of the client's own hair that usually are attached using heat, or else extensions are sewn into mini beads with the client's natural hair. Either way, the result is the same...the weight of the extension causes significant pulling and breaking of the client's natural hair.

By contrast, Rodolfo's "Hair Infusion" are small, flat, extremely lightweight pieces of human hair that is completely safe, and does not use heat.

A perfectionist in his field, Rodolfo Valentin is always searching for new ways to treat and color hair safely.

He listens to his clients' needs, examines their color and hair texture, and tailors each "Hair Infusion" personally. Hundreds of clients' reports that their own hair has grown longer and healthier.

HAIR INFUSION AND HAIR COLOR

Hair Infusion Hair Extensions, this is our patented and trademarked brand of Hair Extensions, and this product is the result of an exhaustive research. It is the top of the line Hair Extension for people who care for the health of their own hair, Hair Infusion, based hair extension system.

We only use the finest hair from Europe and Russia. We begin always with virgin hair, and our tips are

specially formulated to not fall apart and can be reused for a long time. Most people have their hair adjusted every 6 weeks, to keep a fresh look. This is the top hair extension system, reusable and undetectable. By using "Hair Infusion", clients can add color and highlights without any chemicals, perfect for clients who may have allergies. What's more? Hair Infusion is a simple, relative quick procedure, saving time and money. Color is blended into the hair faster than in a typical coloring procedure. And, by using different tones and highlights, clients can avoid the uniform colors associated with traditional hair extensions.

THINNING HAIR and VOLUME

"Hair Infusion" is the safest and healthiest way to increase volume for clients with thinning hair. The lightness of the "Hair Infusion" coupled with its flat shape is the answer for fuller, more beautiful hair. While classic hair extensions may add length to your hair, "Hair Infusion" can also be used for those who prefer a short hairstyle.

Rodolfo Valentin's Hair Infusion is offered in a variety of lengths, all done to the clients' specifications.
