uCertify (November 19, 2009) uCertify, a leading solution provider for IT certification exams, proudly announces the launch of PrepKit for the M70-432 exams on November 19, 2009. The preparatory exam simulators for M70-432 intermediate exams can be downloaded from the following links:

<http://www.ucertify.com/download/70-432.html>

About the exam

Microsoft's 70-432 test is designed to measure your ability to implement and maintain information systems that incorporate Microsoft's SQL Server 2008. When you pass Exam 70-432: TS: Microsoft SQL Server 2008, Implementation and Maintenance, you complete the requirements for the following certification(s): Microsoft Certified Technology Specialist (MCTS): Microsoft SQL Server 2008, Implementation and Maintenance.

This test consists of Multiple Choice, Hot Area, Drag and Drop, Build list and reorder, and Build a Tree questions. The test can be adaptive and simulation questions might be asked. A candidate has to attempt around 45-50 questions in 120 minutes while taking the exam.

The demo version of this Prepkit collectively includes thirty questions, related study notes, articles, and study tips for FREE. The full version of this PrepKit contains over 200 questions, and over 300 study notes that offer a comprehensive coverage of the exam objectives, technical articles, study guides and numerous study aids guaranteed to help you learn and pass your certification exam in the first attempt! These PrepKits come with a full 100% money back guarantee. You are guaranteed to pass in your first attempt, or we will refund your money. No questions asked!

Pre-requisites for M70-432

There are no specific prerequisites for this test, although it is recommended that you should be adept in using database tools, wizards, writing codes in T-SQL and other scripting languages, debugging codes and troubleshooting databases.
