

Cloud Nine Open Beta Testing Floats Effortlessly To Success

By Digital Media Exchange

Dated: Nov 27, 2009

Cloud Nine is off to a great start as it began Open Beta Testing last Nov 25. The latest offering from Korean powerhouse Netgame that brought us Hero Online, Scions of Fate and Operation 7 is available for download at the Cloud Nine website.

Cloud Nine is off to a great start as it began Open Beta Testing last November 25. The latest offering from Korean powerhouse Netgame that brought us Hero Online, Scions of Fate and Operation 7 is available for download at <http://cloudnine.netgame.com>.

Cloud Nine is a Free – to – Play Fantasy MMORPG based on a legend of confrontation between a nation of merchants, Primus Union, who value loyalty the most, and a society of races who worship nature and freedom, Ganav Libero.

Players will be sure to enjoy the casual graphic style of Cloud Nine with its creative game play and engaging storyline. The game features a unique concept for each continent with different tactics and strategies needed for each. Generous bonuses are awarded to those that complete quests, which rewards hard work and greatly aids in leveling.

Cloud Nine also boasts special systems such as:

1. Class Revolving – Players are able to change their class while in battle which affords more flexibility and creativity in their playing style.
2. Seven Sign – A unique party skill combo system which, if completed successfully, will start a very strong summon system that can show several kinds of effects such as the offensive type, the buff type, defensive type, etc.
3. Monster Collection and Monster Taming – Monsters in Cloud Nine provide players with monster cards which can be registered in a monster collection book. When players collect the various cards in the game, they get authorized to obtain various monster taming items from a certain shop. Tamed monsters will support players as a pet with extra attaches and special skills. Also, the Monster Card Collection will be fun for anyone who loves to collect things.
4. Monster Transformation – Players gain the ability to play as monsters by using monster cards they obtain from battle. Players will enjoy dealing with the unexpected because the system does not only transform appearances but also skills and stats so players will encounter a whole new type of game – play and enjoy the thrill of being a monster in the game.

According to Netgame, they will open other maps after Open Beta Testing such as Nation War, Kanto, Archahel and Ceres by turns and start selling special items in their premium shop. More information can be found about the game at <http://cloudnine.netgame.com>.

About Netgame

Netgame is a game portal site from MGAME USA. At this time, Netgame services 4 online games such as MMORPG and FPS
