Dec. 2, 2009 - [PRLog](#) -- Lower back tattoo is no more an original choice these days, in fact one fifth of women have a tattoo on their lower back. At times it is difficult to find a young female without one; it is so common that a derogatory term “Tramp Stamp” is used for them very commonly. It is more so used for those young women who wear low cut jeans and crop top showing off a tribal tattoo design.

It is not very difficult to understand the reason behind their popularity. Women’s body has certain parts which are supposed to be more sensual. Among these are the sensitive areas like neck and lower back. They have a tantalizing and sensual appeal to men and you can easily hide them too.

Unlike tattoos on other body parts the lower back tattoo can easily come under the shirt. This is ideal for people who want to show their tattoo off when they want which is ideal for those who may be frowned upon for having a tattoo on display in the workplace.

There is a whole range of lower back tattoo designs and styles to choose from. Some of the more popular include:

- Flower Designs are the first choice for women and especially in the lower back area.
- Dolphin Tattoos also look beautiful on the lower back and can be especially cute. Other choices of cute tattoos include butterfly tattoos.
- Tribal Designs are the most common tattoo designs seen on women’s lower back. The most popular tribal designs include Star, Sun and Celtic styles. A lot of tribal designs are inspired by styles from Polynesia.
- Dragon Designs are supposed to be more adventurous and always look fantastic.

If you are planning to get a lower back tattoo they remember the following advice.

Throughout the healing process you must wear loose fitted pants so as to avoid rubbing. Also ensure that you wear loose clothes when you go to the tattoo parlour so that the artist finds it easy to do his job.

Always research thoroughly before getting a design tattooed. Decide very carefully and if any doubts then search for another design you totally feel happy about. Tattoo once done is very expensive and painful to get it removed. Don’t just get a lower back tattoo because your friend has it or it’s in fashion.

Always have a unique lower back tattoo design as it will express yourself and it will be with you for your lifetime to charm you and all.
