

uCertify launches the updated version of UM0-100

By uCertify

Dated: Dec 05, 2009

This upgrade is released keeping in view the latest changes in the OMG certified OCUP Exam pattern. The fully upgraded PrepKit contains 200 questions (50 new) including 50 pop quiz questions and 115 short notes.

The OMG Certified UML Professional (OCUP) Fundamental Exam is designed for the IT professionals who build, maintain, and control well-formed project plans. The OCUP Fundamental Examination covers the most commonly encountered UML elements. Familiarity with these elements allows a user to construct and work with simple UML models. A member of a UML development team should have the knowledge and skills to acquire this certification. The professionals should be familiar with key project management concepts and terminology.

The exam measures your skills and ability to accomplish tasks, understand the core modelling concepts of UML, understand and represent models of traditional sequential flow charts in UML, knowledge and comprehension of the various Interaction Diagrams and their concepts, etc. On passing the exam OMG-OCUP-100, you complete the requirements for the following certification OCUP: OMG Certified UML Professional. There is no pre-requisite for this exam.

The format of this test is standard and it consists of Multiple-Choice and Drag-and-Drop questions. You will be required to attempt approximately 80 questions in 90 minutes. To pass, you need a score of 46%. The uCertify's omg-ocup-100 prepkit have 4 full length tests with full explanation. PrepKit also provides chapter by chapter study guide, quizzes, flash card, articles and how tos. We provide a comprehensive training solution to enhance your preparations and to help you pass this specialized certification exam.

The uCertify UML PrepKits come with realistic practice tests containing challenging questions to give you the experience of the actual OCUP fundamental exam. It provides concepts that are essential for understanding the complex UML 2.x technology. We assure you that you will get OMG OCUP certified easily with the help of our PrepKits.

The new upgrade version of um0-100 exam has the following enhancements:

1. Difference between UML 2.0 and UML 1.0.
2. Different representation of use cases.
3. Interfaces(supplied and required interfaces)
4. Lifeline and behaviour concepts.
5. Types of nodes.(fork, join, merge, decision, etc.)

prepkits have full length test with full explanation. PrepKit also provides chapter by chapter study guide, quizzes, flash card, articles and how tos Mark Smith, Director of Product management, who has more than 10 years of IT experience at uCertify, remarked, "There's no doubt that the um0-100 PrepKit contains every information you will ever need for your test preparations. And of course, not only does the PrepKit save your time and effort, but it also allows you to focus on your weak areas so that you can concentrate on them."

Getting OCUP certified is really easy. Our PrepKit saves your time and money on searching for the appropriate study material, as it contains everything you will require for your preparations. Just take the practice tests, go through the study notes and guides, and you are ready for the actual exam questions. To know more about this exam please read the following:
