

## Timberland Flooring Specialist Hardwood Floor Installation Service

*Timberland Flooring offers a bespoke hardwood floor installation service that will transform your home.*

**Dec. 6, 2009** - [PRLog](#) -- Timberland offers a bespoke hardwood floor installation service that is second to none.

Timberland has been designing and installing hardwood floors for over ten years and has a staff base that share over 175 years of experiencing in designing, making and installing hardwood flooring systems. Every member of the Timberland wooden floor installation team is a fully qualified carpenter which ensures that every wooden floor that Timberland Flooring install is done so to the optimum quality.

Timberland Flooring is based in central Oxfordshire but our customers are based across the country. As well as designing and installing wooden floors for private customers they are responsible for designing and fitting wooden floors for restaurants and hotels across the country.

Installing a wooden floor is not something that you have done to your home on a regular basis and therefore should be something that is carried out professionally and will last for over ten years. That is why Timberland keeps the control of the project from start to finish. They employ all the staff on a permanent basis and don't subcontract work out to unknown fitters. Each floor that is designed by Timberland will be installed by one of their staff giving you complete piece of mind when you buy the product.

And it is not just the design and installation service that is important to Timberland. They are conscious that the product should be of a high quality too. That is why all the hardwood floors that are installed by Timberland are manufactured in Germany and adhere to exacting German standards. This ensures that the product that we install into your home is probably the highest quality product available on the market today and therefore is one that will add value as well as character to your home. In fact we are so confident of the quality of the hardwood floors that we install into your home that we can offer up to 25 year manufacturers guarantees on them.
