

Free Seminar on Mobile Computing in Java

By *Rahila Wajid*

Dated: Dec 29, 2009

Alliance Training and Solutions offers Free Seminar on Mobile Computing in Java at Lahore.

Sun Certified Mobile Application Developer for the Java Platform,
Micro Edition, Version 1.0 (CX-310-110)

The Sun Certified Mobile Application Developer for the Java Platform, Micro Edition, Version 1.0 certification exam is for programmers and developers who are using Java 2 Platform, Micro Edition (J2ME) technologies to develop mobile applications for cell phones or other Java enabled devices. Passing this exam certifies that the candidate has achieved a standard level of proficiency with mobile Java technologies, as well as with the Java Technology for Wireless Industry (JTWI) specification, including the Wireless Messaging application programming interface (API) and Mobile Media APIs. To take the Sun Certified Mobile Application Developer exam, you must have already achieved the status of Sun Certified Programmer for the Java 2 Platform.

Who can Attend ?

Programmers interested in learning JavaME

JavaME Platform Application Developers

Students interested in making a career in Mobile Technology

Programmers interested in exploring the Mobile Gaming
Technology.

Java Programmers looking for an option in the futuristic market of Mobile Technology.
