

## Heart Internet hosting launches white label iPhone control panel for resellers

*Reseller web hosting specialist Heart Internet (www.heartinternet.co.uk) has announced the launch of its white label iPhone control panel for resellers.*

**Dec. 31, 2009** - [PRLog](#) -- Nottingham, United Kingdom - Reseller web hosting specialist Heart Internet (www.heartinternet.co.uk) has announced the launch of its white label iPhone control panel for resellers.

Web hosting resellers can now use their iPhone to manage client's domain names and all their web hosting accounts, including adding brand new hosting accounts, as well as view system status updates and keep control of expenses by accessing their invoices. Other features include webmail access, the ability to view analytics data, website backup and restore and much more. Heart Internet resellers can also provide their clients with the ability to manage their own web hosting accounts through their iPhone using a white label and customisable control panel.

"We have always prided ourselves on being at the forefront of reseller hosting technology providing our customers with flexible white label products." Said Heart Internet director Jonathan Brealey "Our iPhone control panel provides resellers and their clients with the latest technology whilst ensuring our resellers maintain a coherent brand and Heart Internet is never exposed to their clients."

The Reseller iPhone control panel is free with all Heart Internet reseller hosting accounts. For more information visit the website <http://www.heartinternet.co.uk>

###

Since 2004 Heart Internet (www.heartinternet.co.uk) has grown in to one of the UKs leading hosting and Reseller companies built on the principles of quality products at market leading prices.
